

FLGR COVID-19 Policies for Backside Training Period- 2021

V. March 2, 2021

Additional policies will be in place for the Live Racing Period.

See Part II starting on Page 13.

In anticipation our re-opening of the FLGR backside for training purposes, we have developed these policies to cover any and all persons as it relates to COVID-19 and the precautions that need to be taken to ensure the safety of our associates, horsemen, and horses, and to reduce the risk of a COVID-19 outbreak at the property.

These policies set forth in this memo and are subject to change at the discretion of the New York State Gaming Commission (NYSGC) and track management, in accordance with guidance from the Centers for Disease Control (CDC) and state and local health departments.

- Our goal is to utilize industry best practices combined with the active engagement of all participants to maintain a safe and healthy environment for everyone involved (horsemen, vendors, FLGR employees, NYGC employees, etc.) during training and racing at FLGR.
- These guidelines are expected to evolve as the situation progresses and additional regulations and best practices are put forth.
- **As a condition of all licensees' privilege to be on the grounds of FLGR, all participants on the property will follow these guidelines completely and promptly or risk expulsion from the grounds.**
- **All NYS COVID mandates and all public health recommendations must always be followed while on the property in order to mitigate the potential to spread the virus.**
- **This includes but not limited to proper hygiene and sanitation practices, wellness screening, six-foot social and other physical distancing and the appropriate use of masks while on the property.**

Backside Access:

- **As per the April 2, 2020 NYGC directive stating that there must be tightly controlled access to open racetracks or barn areas, they will be closed to all non-essential**

personnel. No visitors or guests are allowed.

- NYS requirement is for a daily list of those with approved access and a log must be kept of all entry times.
- FLGR will define those minimal essential personnel who will be allowed on the premises in order for the purposes of training of FLGR horses.
- **As per the NYS NY Forward Business Re-Opening guidelines, all employers are responsible to ensure compliance with all NYS COVID-19 public health mandates for the immediate area under their control, their individual employees, and for contractors while they are performing services for them.**
- **As such, FLGR will require each Stable / Trainer who has been issued stalls and each Veterinary Practice to fill out an application requesting backside access for each of their employees, owners and contractors. Each application will be reviewed by FLGR prior to access authorization being granted.** In the case of some positions (e.g. exercise rider), more than one Stable / Trainer may list an individual.

Essential Positions and Responsible Party

Responsible Party: FLGR

- Ambulance drivers, EMTs, Paramedics
- Asst GM
- Clockers
- FLGR Backside maintenance crew
- FLGR EVS staff.
- FLGR Security staff.
- FLGR Stewards
- FLGR Vets
- Gate crew
- GM
- Outriders
- Racing Secretary
- Stallman
- Swim barn Attendant

Responsible Party: Individual stable / trainer

- Asst Trainers
- Owners (must be accompanied by the trainer or asst trainer at all times)

- Grooms
- Exercise riders
- Stable Employee
- Jockeys (when used in training)

Responsible Party: Individual Veterinary Practices.

- Private Veterinarian
- Vet Tech
- Vet Asst
- Other staff

Responsible Party: Individual Farrier / Vendors.

- Farrier
- Other staff

- Entry to the backside will be permitted for the sole purpose of actively caring for and training of horses in preparation for live racing.
- FLGR employees will only be permitted to be on the backside while performing assigned backside duties of FLGR.
- **Licensed owners shall only be admitted to morning training sessions and must be accompanied by the trainer or asst trainer at all times.**
- **All owners must vacate the stable area at the conclusion of morning training.**
- The Security Director will develop and oversee all access control procedures, monitoring and reporting requirements and ensure all suspected or confirmed cases of COVID-19 infection are properly communicated and documented and will perform contact tracing with the assistance of the NYS DOH.
- During the training period, the WEST portion of the frontside building will remain closed with the exception of the HBPA Office in the Lower Clubhouse and the NY Gaming Commission office which will be accessible by entering through the West racing doors and proceeding directly up to the second floor to their office.
 - After completing the essential personnel license paperwork, NYGC will notify the FLGR security badging office on a daily basis who has renewed their license and the

- FLGR security will print the new FLGR badge and drop it off at backside gate for the next day.
- The NYGC receipt given to the licensee will allow backside entry for that day.

Stable Gate Entry Procedures:

- All Stable / trainers and Veterinarians are highly encouraged to apply for authorization for their teams prior to requesting entry at the stable gate on March 15th.
- Authorization forms will be mailed out to trainers, are available on our website, at the HBPA office or by emailing the HBPA Executive Director.
- **Before being allowed in the stable area, each day all authorized personnel must present their NYS Racing license and pass a daily wellness check.**
 - Medical or Security personnel will perform a daily temperature check. If a participant's temperature is 100.4F or greater, the participant will not be admitted and will be required to exit the premises.
 - Also, each participant will be asked to verbally complete a brief COVID-19 Self-Certification prior to entry-
 - After the verbal self-certification, if FLGR believes that the participant is exhibiting COVID-19 symptoms, has been exposed to COVID-19 or are unable or unwilling to self-certify, the participant will be asked to immediately leave the premises and to seek medical attention.
- **Participants who pass the wellness check will be given a wristband (rotating colors for different days) which must always be worn while on the backside and for reentry the same day.**
- **If anyone is located on the backside not wearing a wrist band with the corresponding day's color, they will be escorted to the main security gate for further action.**
- A log with their entry time of each permitted individual will be maintained.
- These entry logs combined with the Employee / contractor list will be used to assist in contact tracing in the event of a positive case.

- **Each employer such as a Stable/Trainer, vet practice, farrier, etc. is responsible for all its employees, owners and contractors to ensure that all guidelines identified in this document and the NYS Department of Health are being followed such as:**
 - 1) They have presented themselves for the daily wellness check prior to entry, have been approved and are wearing the correct colored band for the day.**
 - 2) They are properly licensed by the NYGC.**
 - 3) They are wearing an appropriate mask or face covering that covers both the mouth and nose and properly store, clean and dispose of it as appropriate.**
 - 4) They are performing the proper sanitation procedures in their barn under the responsible party's guidance**
 - 5) They have been following all social distancing protocols.**
 - 6) They report any symptoms of COVID-19 and that if they see that any individual is exhibiting possible symptoms or otherwise violating these procedures, they are to notify Security immediately.**
 - 7) They follow appropriate health measures, including hand hygiene and cough and sneeze etiquette.**
 - 8) They take appropriate measures to reduce interpersonal contact and congregation.**

- All incoming van drivers and other such vendors (after wellness check) must wear a suitable covering (a mask, scarf or bandana) over their nose and mouth and wear gloves when entering to pick up or drop off horses. Drivers and attendants must have minimal contact with any stable personnel.

Quarantine Restrictions on Travelers coming from Out of State.

Current NYS Mandate applies and must be followed by all participants

For any traveler to New York State from a noncontiguous state, US territory or CDC level 2 and higher country, the new guidelines for travelers to test-out of the mandatory 10-day quarantine are below:

- **For travelers who were out-of-state for more than 24 hours:**
 - Travelers must obtain a test within three days of departure, prior to arrival in New York.
 - The traveler must, upon arrival in New York, quarantine for three days.
 - On day 4 of their quarantine, the traveler must obtain another COVID test. If both tests comes back negative, the traveler may exit quarantine early upon receipt of the second negative diagnostic test.

- **For travelers who were out-of-state for less than 24 hours:**

- The traveler does not need a test prior to their departure from the other state, and does not need to quarantine upon arrival in New York State.
- **However, the traveler must fill out our traveler form upon entry into New York State, and take a COVID diagnostic test 4 days after their arrival in New York.**
- The local health department must make contact with the state the traveler came from, to ensure contact tracing proceeds there as well. All travelers must continue to fill out our traveler form upon arrival into New York State to contribute to New York State’s robust contact tracing program.
- Contiguous states are Pennsylvania, New Jersey, Connecticut, Massachusetts and Vermont. Travelers from these states are not subject to this guidance.
- The travel guidelines require all New Yorkers, as well as those visiting from out-of-state, to take personal responsibility for compliance in the best interest of public health and safety.
- For general inquires contact the call the Hotline: 1-888-364-3065 or your local department of health.

All Participants - Health and Hygiene

Preventative Measures

All Finger Lakes training and/or racing participants will be expected to follow the guidance of the Centers for Disease Control and Prevention (“CDC”) and:

- Avoid ANY contact with people who are sick.
- Avoid touching eye, nose and mouth areas.
- Practice cough/sneeze etiquette (i.e., covering cough/sneeze with a tissue, or an elbow or shoulder if no tissue is available, followed by thorough handwashing).
- Wash hands before the start of your shift and as appropriate throughout the day with soap and water for at least 20 seconds and dry thoroughly with a disposable towel or dryer.
 - The bathrooms in the dorm buildings and the racing office building will be open for use and will be fully stocked with soap and hand towels.
 - Where handwashing is not available, use an alcohol-based hand sanitizer.
 - Hand Sanitizer stands will be placed in the backside entry gate, maintenance shop, clocker stand, kitchen, racing office, starting gate, etc.
- See attached Appendix A for proper Handwashing Technique
- **Trainers, vets and all other employers are expected to have an adequate supply of both**

soap and hand sanitizer on hand for themselves and for their employees and are responsible for their timely and proper use by their employees.

Protective Equipment:

- **Trainers, vets and all other employers must also provide employees with an acceptable face covering at no-cost to the employee and have an adequate supply of coverings in case of replacement.**
- **Everyone must wear a face mask / face covering that covers both the mouth and nose while on the property if they are within six feet of another person OR if they are within any building or barn.**
- **Everyone must be prepared to don a face covering if another person could come unexpectedly within six feet.**
- Face coverings must be cleaned or replaced after use or when damaged or soiled, may not be shared, and should be properly stored or discarded
 - See attached Appendix B for Proper Wearing and Storage of Face Mask

Social and Physical Distancing

- **Practice social distancing pursuant to CDC guidance:**
 - **Modify the frequency and type of face-to-face encounters in the workplace (e.g., no hand-shaking, maintain separation between individuals where possible).**
 - **Practice safe distancing by remaining six feet away from other people.**
 - **All participants must to the greatest extent possible remain in their assigned work spaces (barns, stands, posts, etc.) so as to minimize contact.**
- Tightly confined spaces (e.g. equipment and tack storage areas, trailers, office animal care/feed areas, vehicles) by more than one individual at a time, unless all employees in such space at the same time are wearing acceptable face coverings.
- However, even with face coverings in use, occupancy must not exceed 50% of the maximum capacity of the space.

- Rearrange equipment, tables, chairs, feed storage areas, etc. to ensure they are at least 6 feet apart where possible.
- Social distance markers will be posted in commonly used areas (e.g., kitchen, swim barn, time clocks, health screening station) to denote 6 feet of spacing
- **All participants must stay home from work if they have symptoms of acute respiratory illness. These symptoms include fever, cough, sore throat, chills, repeated shaking with chills, muscle pain, headache, vomiting, new loss of sense of taste or smell, and shortness of breath.**
- **All participants MUST notify the FLGR security staff IMMEDIATELY upon knowledge if they have close contact with an individual diagnosed with COVID-19 or if they have been diagnosed with COVID-19.**

Cleaning and Disinfecting:

- All standard cleaning and disinfecting procedures noted below must be followed.

FLGR Areas of responsibility:

- Area around Backside Gate – Guard Station, Gate, etc.
- Racing Office
- Racing Office Bathrooms
- Kitchen (when in use for another purpose by FLGR)
- FLGR office space
- Swim Barn
- Clocker Stand
- Dorm bathrooms
- FLGR supplied Port Potties
- Starting gate
- Maintenance shop
- Maintenance equipment
- FLGR vehicles
- Ice machines

Stable / Trainer Areas of responsibility:

- Assigned stalls
- Respective shed rows

- Tack rooms and/or sheds
 - Barn doors used to enter / exit your area.
 - Hoses
 - Manure containers
 - Outside wash stalls
 - Personal equipment (buckets, rakes, shovels, etc.)
 - Personal vehicles
 - Eurorsicor
 - Walkers
- **All other participants such as Vets, Blacksmiths, NYGC employees, etc.) are expected to handle cleaning and disinfecting of their own respective areas and equipment while ensuring compliance with CDC guidelines and any state or local department of health requirements.**
 - **Tack and barn equipment (i.e. Lead shanks, grooming tools, mucking equipment, tack) must be assigned to specific personnel only (no sharing) and must be cleaned and disinfected on a daily basis at a minimum.**

Cleaning versus disinfecting

- Cleaning removes dirt and impurities from surfaces/objects and may lower the count of germs by removing them from surfaces/objects but not necessarily killing them. Cleaning is not disinfecting, which is defined below.
- Disinfecting reduces and kills germs on surfaces/objects. Disinfecting does not necessarily clean the surface, so cleaning must precede disinfecting in order to be effective (or use a disinfectant that includes a cleaning solution).
- Cleaning Technique: Clean High-Touch Areas by using water and soap or cleaning solution to remove dirt and impurities from surfaces/objects and reduce the count of germs.
- Disinfecting Technique: Disinfect High-Touch Areas by using disinfectants identified by the Environmental Protection Agency as effective against COVID-19 (<https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>).
- When disinfecting, follow label instructions regarding contact times (i.e., the amount of time a disinfectant should remain on surfaces to be effective). Contact times may vary between five and 10 minutes after application. Disinfectants that come in a wipe form will also list effective contact times on their label
- Guidance on proper cleaning and disinfecting technique is provided in the diagrams in

Appendix D.

Frequency of Cleaning/Disinfecting:

- High-Touch Areas should be cleaned and disinfected four times daily.

List of Typical High-Touch Areas:

- Not intended to be all inclusive – Remember your environment is your responsibility

High Touch Areas: Door knobs & handles, handrails, trash containers, shared equipment, light switches, counter tops, tables, chairs, vending machines, ice machines, phones, computer equipment, hoses, buckets, feed bags, other stable equipment, and all other shared equipment.

Public areas: Door handles, handrails, light switches, furniture, chairs, countertops

Restrooms: Door handles, stall handles, toilet handles, toilet seats, sink faucets, soap dispensers, towel dispenser handles, trash receptacles.

Disposal:

- Place all used gloves and other disposable items used when cleaning and disinfecting in a bag that can be tied closed before disposing of them with other waste.

Signage:

- Participant facing posters that encourage staying home when sick, cough and sneeze etiquette and hand hygiene will be placed at the property's entrances, bathrooms, and other public areas to promote health and hygiene practices.
- Example is attached as Appendix C.
- **Additional updated information will be displayed and/or distributed at the daily health screening.**

Other Areas:

Backside Dorms:

- **A dorm room can only be occupied by its assigned individual. No other individuals are permitted in the rooms at any time due to social distancing restrictions.**
- Only authorized essential backside grooms who demonstrate an appropriate need will

be granted a dorm room.

- Each applicant must fully complete a dorm application, abide by all rules and be actively employed full time by a recognized FLGR trainer to be considered.
- Each dorm occupant's employer will be expected to cosign the dorm agreement.
- If dorm occupant is no longer working for the trainer, the dorm occupant will agree to vacate the room within 72 hours. If they subsequently secure employment with another trainer, they will have to complete a new application
- Backside dormitory and living areas will be monitored routinely for compliance by security team members.
- All dorm inhabitants will make themselves available at a pre-determined time for a daily wellness check by FLGR personnel as per NYGC mandate.
- The number of available dorm rooms will be limited to 60 in total.
- One dorm building will be set aside to provide individuals a safe area to be temporarily quarantined in the event it is required. The FLGR Security Department shall ensure these quarantine rooms are kept fully secured and separate from high traffic areas in the backstretch. The FLHBPA has agreed to have an offsite location available to ensure the basic needs of any individuals under quarantine are met.

Kitchen:

- The operational parameters of the Backside Kitchen will comply with all State, Local and CDC guidelines and restrictions.
- Dining room furniture will be placed to promote proper social distancing and cannot be moved at any time except by FLGR security.

Swim Facility:

- One handler per horse
- Max occupancy will be 5 horses, 5 handlers and the swim facility operator.
- If we have volume issues at certain times and in order to best utilize trainers' time, we will implement a system where trainers can pre-book a time slot.

Gate - Training

- Gate crew personnel must wear a suitable face mask / face covering over their nose and mouth while loading horses in the starting gate and will have no physical contact with any other personnel unless in the best interest of equine and human safety.
- Every other stall will be used when possible during training to promote social distancing of gate crew and the exercise riders.
- The gate crew shall disinfect the starting gate every morning before training and after training.

Clocker Stand:

- Only the clocker is allowed in the clocker stand.
- Submit clocking request in the door slot prior to the workout.
- Trainers will notify the clocker when the horse is coming onto the track for the workout.
- Communication with the clockers must be done while maintaining social distancing.

Outrider:

- In addition to normal duties, the outrider will be responsible for enforcing all safety protocols including the appropriate wearing of masks and appropriate social distancing of individuals in their immediate area.
- Will report all noncompliance to security for further action.

Exercise riders:

- During training, all participants must maintain appropriate (six feet) distancing.

Racing Office:

- Racing Office will be fully closed until the first entry day.
- All entries will be restricted to telephone and online entries.
- No non-racing office staff allowed in the racing office without the written permission of the Asst GM.
- The office space will be reconfigured to promote proper social distancing.

VIOLATIONS

Any individual who refuses to follow these policies or acts in a manner that in the opinion of FLGR increases the risk of COVID-19 exposure to other individuals will be immediately escorted off the premises.

PART II – Additional Policies for Live Racing.

(Assumes that No Fans are allowed)

These are additional policies that are supplemental to the Training Period Policies listed earlier in this document.

Frontside Access during Live Racing Hours:

- During all non Live Racing hours, the WEST frontside building will remain closed with the exception of the HBPA Office in the Lower Clubhouse and the NY Gaming Commission office which will be accessible by entering through the West racing doors and proceeding directly up to the second floor to their office.

- On a Live Race Day only, the following essential participants will be allowed access to the listed areas listed noted below and only for the purpose of preparing for or conducting that day's live race program.

Valets	Racing Entrance, Second floor hallway, Jockeys Room, Chute, Paddock
Jockeys	Racing Entrance, Second floor hallway, Jockeys Room, Chute, Paddock, Main Race Track
Stewards	Racing Entrance, Second floor hallway, Steward offices, Jockeys Room, Chute, Paddock, Elevator, Crows Nest
Racing Officials	Racing Entrance, Second floor hallway, Steward offices, Jockeys Room, Chute, Paddock, Elevator, Crows Nest, Claim room
Trainers with a horse racing	Racing Entrance, Second floor hallway, Lower Clubhouse for travel to the Apron, Winners Circle, Paddock, Main Track, Claim Room.
Grooms with a horse racing	Racing Entrance, Second floor hallway, Lower Clubhouse for travel to the Apron, Winners Circle, Paddock, Main Track
CCTV Staff	Racing Entrance, Second floor hallway, CCTV Room, Camera Towers, Elevator, Crows Nest.

- Valets will limit their hours on the frontside to between 10 am and one hour after the last live races.
- Jockeys will limit their time to 1 hour before their scheduled race to ride and will vacate the area with 30 minutes of their last mount for the day.
- Stewards and Racing officials will limit their time to only essential duties between the hours of 9am and to up to 30 minutes after the last race of the day.
- **Trainers who have a horse racing that day can enter the paddock for that race when the horse arrives, may proceed to the front apron to observe the race, enter the winners circle as needed and will exit the area immediately after the race has concluded.**

Owners Racing Frontside Access during Live Racing

- Once the overnight is published, **the owner's trainer must contact FLRA Racing Office by 1pm the day prior to the day that the horse competing to request that an owner be placed on an authorized frontside entry list.**
- Owner access will be **limited to two owners per trainer** for each horse competing.
- The Racing Office shall confirm the license status of the owner and establish a roster of owners authorized to be admitted each day.
- On race day, FLGR will have a point of entry at the Lower Clubhouse that the Owners must check in at. **All wellness checks, log in, mask requirements, social distancing, and wrist band procedures also apply to owners.**
- **Owners who have a horse racing that day can enter the frontside area for that race, may proceed to the front apron to observe the race, enter the winners circle as needed and will exit the area immediately after the race has concluded.**
- **Trainers or Asst trainers must accompany their owners at check in and at all times when on the Frontside.**
- **There will be no physical interaction beyond what is necessary to the running of a live race.**
- All Racing staff will be isolated to their areas of work requirement and are asked to stay in that location throughout the workday (i.e. Paddock Judge in paddock, Placing Judge on roof) to minimize physical interaction.
- FLGR will establish a point of entry in the clubhouse racing area that all essential employees

and jockeys will enter and exit during each live race day.

- FLGR will develop a list of essential employees that will be allowed into the grandstand / paddock area on a live race day. Each employee will be required to show valid identification upon arrival at the grandstand entrance.
- **FLGR will monitor horsemen who wish to enter the grandstand entrance allowing only those with horses racing that day to enter.**
- A log with their entry time of each permitted individual will be maintained.
- As with the backside policy, at the discretion of FLRA, anyone who is requesting access to the frontside for the purposes of participating in the racing program must follow the NYS Quarantine Restrictions on Travelers coming from Out of State (listed above on pg 5)
- **In order to enter and travel within any frontside area, every individual must wear a face mask / face covering that covers both the mouth and nose while on the frontside of the property if they are in a confined or building area or if they are within six feet of another person.**
- **If they are outside in an open area, all individuals must be prepared to don a face covering if another person moves within six feet of them.**
- The same daily wellness checks as noted above for the backside will be followed before any individual will be allowed to enter the racing entrance.
 - All authorized personnel must present their NYS Racing license and pass a daily wellness check.
 - Medical or Security personnel will perform a daily temperature check. If a participant's temperature is 100.4F or greater, the participant will not be admitted and will be required to exit the premises.
 - Also, each participant will be asked to self-certify by answering a brief series of questions concerning their well being.
 - If FLGR believes that the participant is exhibiting COVID-19 symptoms, were exposed to COVID-19 or are unable or unwilling to self-certify, the participant will be asked to immediately leave the premises and to seek medical attention.
- Participants who pass the wellness check will be **given a Frontside wristband** (rotating colors for different days) which must always be worn while on the frontside and for reentry the same day. If you have already received a Backside wristband that day, you can bypass the

Wellness check.

- **If anyone is located on the frontside not wearing a Frontside wrist band with the corresponding day's color, they will be escorted from the property and subject to further action.**

Gate - Racing

- Gate crew personnel must wear a suitable face mask / face covering over their nose and mouth while loading horses in the starting gate and will have no physical contact with any other personnel unless in the best interest of equine and human safety.
- The gate crew shall disinfect the starting gate every morning before training, after training and after live racing concludes.
 - All starting gate personnel will be asked to remain out by the gate in between races or will be given a dedicated area in the lower grandstand for protection from inclement weather. Social distancing between races will be required.

Jockeys & Jockeys Room Operation:

Jockeys

- All jockeys will be required to enter through the clubhouse racing entrance and follow the above check in procedures. (temperature reading, medical questions, wristbands, etc).
- The jockey stations located in the current jockey room will be spread out to several areas to provide for proper social distancing.
- Jockeys who are not in the current race or who are not riding in the next race will be sequestered in terrace dining room to wait to be called down for their scheduled race.
- Jockeys must follow the same reentry policy noted above in this document on page 5 if they travel out of State must follow the "NYS Quarantine Restrictions on Travelers coming from Out of State"

Valets

- All valets will be provided with and be required to wear a mask at all times.
- Gloves will be worn by valets when handling a horse and should be changed each time they saddle a horse.
- All riders' equipment should be cleaned/sanitized after each race.

- Valet stations will be spread throughout the jockeys room and other areas to isolate the riders as much as possible.
- All valets will be asked to practice social distancing.

Jockeys Room

- The lounge area will be converted to valet stations.
- The sauna and hot box/steam room will be closed.
- The shower and restroom areas will remain open but social distancing will be enforced. These areas will be sanitized throughout the day.
- The cafeteria in the jockey's room will be closed.
- No outside visitors will be allowed in the jockeys room nor any sequestered area.
- A cleaning person will be assigned to the room throughout the day, and a deep clean and sanitization of the area will be performed at the end of every race day.
- A sanitizing station will be set up at the entrance and inside the jockeys room and in any sequestered area. All jockeys, valets and race officials shall practice social distancing during the weigh in and out process.
- All silks to be washed after each race.

Paddock Access and Operations

- **ALL authorized personnel entering the paddock must wear masks.**
- Each horse entered may be accompanied by the trainer **or** the assistant trainer in addition to the groom.
- Trainers with additional horses in the race may add an additional groom or an assistant trainer to assist saddling. (one per horse).
- No owners and no guests allowed in the paddock.
- Social distancing will be required in the paddock. Conversations with jockey pre-race should be done earlier in the day by phone or text or at a safe distance in the paddock.

- A sanitizing station will be placed in the paddock area.
- The standby blacksmith will be in the paddock.

Race Viewing

- Authorized horse trainers / assistant trainers and grooms and owners will be allowed to watch the race from the lower club apron or designated lower clubhouse area and will exit the area immediately after their race has concluded. Social distancing and masks are required.

Winners Circle

- Social distancing and masks are required. Only trainer, assistant trainer, owner and groom allowed.
- There will be no trophy presentations.

Trainers Shipping Protocols

- Trainers with stalls on the grounds with a current staff in place, may bring horses onto the property with Racing Secretary approval to fill vacant stalls.
- **No off-property staff may accompany the horse onto FLGR property unless individual has been authorized for backside entry by FLGR through the process listed above.**
- **As per NYS law, anyone who travels to or from out-of-state must be comply with the NYS Quarantine Restrictions on Travelers coming from Out of State which are outlined above on pg 5-6.**

Receiving Barn

- Receiving Barn shall remain closed until further notice.

Cleaning and Disinfecting:

- The same standard cleaning and disinfecting procedures noted for the backside will be followed on the frontside by the FLGR EVS team.
- All open areas in the grandstand as noted above will be regularly cleaned and disinfected each day, those areas to include the clubhouse racing entrance, elevator buttons, stair handrails, door handles, bathrooms, occupied workspaces, paddock facilities, the starting gate, winners circle and the jockey facilities.
- Hand sanitizer stations will be installed at all touch point areas throughout the grandstand and in

the paddock and viewing areas. All bathrooms will be stocked daily with soap and towels.

- Where possible, doors on the main paths of egress will remain open to limit touchpoint

Appendix A:

Proper Hand Washing Technique

HAND HYGIENE

Practice and promote **proper hand hygiene**.

1 WET
hands with clean running water turn off the tap and apply soap.

2 LATHER
the back of hands, between fingers and under nails.

3 SCRUB
for at least 20 seconds.

4 RINSE
hands well under clean running water.

5 DRY
hands using a clean towel or air dryer.

IF SOAP AND WATER ARE NOT AVAILABLE,
use an alcohol-based hand sanitizer

Appendix B:

Proper Use and Disposal of a Mask

World Health Organization

How to put on, use, take off and dispose of a mask

1

Before putting on a mask, wash hands with alcohol-based hand rub or soap and water

2

Cover mouth and nose with mask and make sure there are no gaps between your face and the mask

Avoid touching the mask while using it; if you do, clean your hands with alcohol-based hand rub or soap and water

3

Replace the mask with a new one as soon as it is damp and do not re-use single-use masks

4

To remove the mask: remove it from behind (do not touch the front of mask); discard immediately in a closed bin; wash hands with alcohol-based hand rub or soap and water

Appendix C:

Example of Signage

Be Smart. Be Safe.
Protect Yourself from the Coronavirus

Suggested Precautionary Measures
from the Centers for Disease Control (CDC):

-  Stay home if you are sick.
-  Cover your cough/sneeze with a tissue, then throw the tissue in the trash.
-  Avoid close contact with people who are sick.
-  Avoid touching your eyes, nose, and mouth.
-  Wash your hands often with soap and water for at least 20 seconds, especially after using the restroom; before eating; and after blowing your nose, coughing, or sneezing.
-  Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.

If soap and water are not readily available, use an alcohol-based hand sanitizer.

 Delaware North.

Appendix D:

CLEANING AND DISINFECTING TECHNIQUE

DISINFECTING HARD, NON-POROUS SURFACES

1 Wear protective gloves.

2 Pre-clean visibly soiled areas to be disinfected.

To disinfect, apply an **EPA-registered product** use-solution with a cloth, mop, sponge, by coarse spray or soaking on hard, non-porous surfaces making sure to wet thoroughly.

Apply product to high-touch surfaces such as doorknobs, light switches, faucets, counter tops, tables, chair armrests, etc.

For an emerging viral pathogen, use a disinfectant with EPA-approved Emerging Viral Pathogen Claim. Contact your Ecolab representative for a complete list of products. Refer to the product label for complete directions for use including appropriate concentration, application method and contact time.

4 Allow the surfaces to remain wet for the time indicated in the directions for use on the product label.

5 Wipe the surfaces or allow to air dry.
